Well, the reason you don't have this already, is that I never wrote it. But, now you do.

(format from R. Bailey memo, 6/25/84)

1. R/V Acadiana
2. ACAD 87-1
3. Coastal Erosion Project, BAMG
4. Area of Operations: offshore central Louisiana
5. May 3 - May 7, 1987
6. Personnel: Ron Circe' USGS, BAMG
Rob Wertz USGS, BPMG
Steve Underwood COE
Sonny Maciasz LGS
7. Captain Lee Black; Wayne Simoneaux, Mate
8. Purpose: collect bottom samples offshore Isles Dernieres barrier islands
9. LORAN-C Navigation using TI Silent 700 and Northstar 6000
10. Equipment: Klien Side-scan sonar and COE built Underway Grab Sampler
11. Tabulated Information
days at sea: 4
~ 250nm (463 km) of side-scan sonar records
225 bottom grabs taken
water depth varied from 3m to 25m

I was very impressed by the underway grab sampler.
