USGS Cruise Report

Cruise: Western Gulf of Maine Current Meter Recovery (GOM93-7)

Dates: July 8-9, 1993

Personnel: Marinna Martini
Joe Newell
Rick Rendigs
Rich Signell
Bill Strahle

Vessel: R/V Argo Maine

Cruise Objectives: Recover moorings in Western Gulf of Maine

Itinerary:

July 8, 1993 EDT

1400 Depart Wotton's Lobster Pound, Boothbay Harbor,
Maine (43N 51.03, 69W 38.10)
1400 Surface Bucket Sample #1 (43N 51.03, 69W 38.10)
1500 CTD and Surface Sample #2 (43N 46.63, 69W 29.35)
1537 Arrive at Monhegan Current Meter Mooring
1537 CTD and Surface Sample #3 (43N 44.81, 69W 22.17)
1554 Surface Buoy on deck
1603 5 m VMCM rotors spun and blocked
1611 25 m VACM rotors spun and blocked
1624 50 m VACM rotors spun and blocked
1627 Acoustic release on board
1627 Underway for Monhegan Pressure mooring
1733 Arrive at Monhegan Pressure mooring
1733 CTD and Surface Sample #4 (43N 37.18, 69W 15.68)
1800 Pressure Tripod on board
1805 Underway for Cape Porpoise
2330 Arrive Cape Porpoise Current mooring
2330 CTD and Surface Sample #5 (43N 18.12, 69W 15.30)
2340 Surface Buoy on deck
2358 5 m VMCM rotors spun and blocked

July 8, 1993 EDT

0016 25 m VACM rotors spun and blocked
0031 50 m VACM rotors spun and blocked
0038 Acoustic release on board
0038 Underway for Monhegan Pressure mooring

0440 Surface Bucket #5 (no CTD) (43N 45.01, 69W 40.52)

0530 Arrive Boothbay Harbor, Maine
